Project Purpose / Business Justification				
At the moment there is no platform where UNIS' students can express their opinions or feelings for other students to see. The only way of communicating is through larger platforms where you don't really know who is who. There's a need for a space online that connects UNIS' students, a need for a community.				
Objectives (in business terms)				
Create a space where students of this institution can interact with each other in a closed space. Facilitate the interaction between members of the UNIS community.
